Introducing the ProMax Secure Transport Van

Next-generation trusted transport solutions for law enforcement & government agencies

Unlock the Future of Safe Transport with FR

Modern transport designed to maximize capacity and security while minimizing cost. FR's ProMax vans provide more seating compared to expensive, limited seating alternatives for use in correctional, detention, psychiatric and processing center settings.

Unmatched Safety & Durability

Safety is our #1 priority. With forward-facing seats and 3-point seatbelts, FR's ProMax vans are built to strict quality standards, including NHTSA certification and ADA compliance where applicable. FR's innovative coating process eliminates corrosion for long-lasting durability.

More Features, Less Cost

We bring complete solutions from bulkhead to bulkhead with more available seating, easy boarding, accessibility options and permanent installation for maximum security — all at a competitive price. Our vans are engineered with officers and transportees in mind: safe, user-friendly, easy to clean and virtually indestructible.

Available ProMax Models

- ✓ **Passenger 12**
  Comprehensive transport solution with highest seating capacity
- ✓ **Partitioned 9**
  Divided floor plan for separating male and female passengers
- ✓ **WC Mobility+**
  Rear wheelchair lift for safe and easy transport
